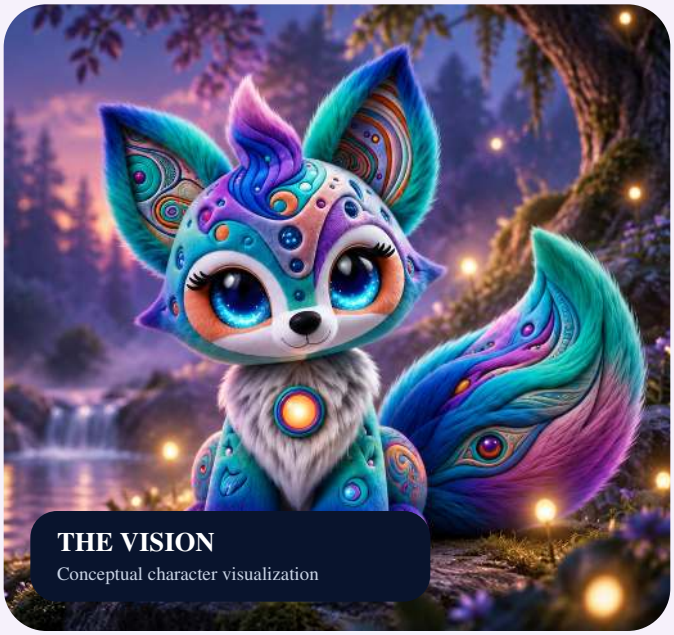
PATENT PENDING

FUNCTIONAL PROOF OF CONCEPT COMPLETE

LICENSING & CO-DEVELOPMENT OPPORTUNITY

Whimsy Wisper™

Interactive character experiences built around imagination and connection



THE VISION
Conceptual character visualization

WHIMSY ONE
Functional prototype and proof of concept

A child does not simply hear the story. The child helps shape it.

Whimsy combines character-led conversation, personalized storytelling, learning activities, and everyday companionship in a physical plush experience.

CORE EXPERIENCE

- Personalized, choice-driven stories
- Age-appropriate character conversation
- Math, riddles, and learning through play
- A friendly way to talk about their day

CURRENT PROTOTYPE STATUS

- Working physical proof of concept completed
- Digital eyes blink and the chest pendant glows
- Blinking eyes and illuminated pendant are functional but not yet synchronized with conversation
- Final design and technology will evolve
